THE PAPERWORK REDUCTION ACT OF 1995 (Pub. L. 104-13)

Use of this model plan is optional. However, the information requested is required in order to receive a Low Income Home Energy Assistance Program (LIHEAP) grant in years in which the grantee is not permitted to file an abbreviated plan. Public reporting burden for this collection of information is estimated to average 1 hour per response, including the time for reviewing instructions, gathering and maintaining the data needed, and reviewing the collection of information. An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number.

Assurances

The Texas Department of Housing and Community Affairs agrees to:

(1) use the funds available under this title to--

(A) conduct outreach activities and provide assistance to low income households in meeting their home energy costs, particularly those with the lowest incomes that pay a high proportion of household income for home energy, consistent with paragraph (5);

(B) intervene in energy crisis situations;

(C) provide low-cost residential weatherization and other cost-effective energy-related home repair; and

(D) plan, develop, and administer the State's program under this title including leveraging programs, and the State agrees not to use such funds for any purposes other than those specified in this title;

(2) make payments under this title only with respect to--

(A) households in which one or more individuals are receiving--

(i) assistance under the State program funded under part A of title IV of the Social Security Act;

(ii) supplemental security income payments under title XVI of the Social Security Act;

(iii) food stamps under the Food Stamp Act of 1977; or

(iv) payments under section 415, 521, 541, or 542 of title 38, United States Code, or under section 306 of the Veterans' and Survivors' Pension Improvement Act of 1978; or

(B) households with incomes which do not exceed an amount equal to 150 percent of the poverty level for such State; or

(i) an amount equal to 60 percent of the State median income;

except that a State may not exclude a household from eligibility in a Federal fiscal year solely on the basis of household income if such income is less than 110 percent of the poverty level for such State, but the State may give priority to those households with the highest home energy costs or needs in relation to household income.

(3) conduct outreach activities designed to assure that eligible households, especially households with elderly individuals or disabled individuals, or both, and households with high home energy burdens, are made aware of the assistance available under this title, and any similar energy-related assistance available under subtitle B of title VI (relating to community services block grant program) or under any other provision of law which carries out programs which were administered under the Economic Opportunity Act of 1964 before the date of the enactment of this Act;

(4) coordinate its activities under this title with similar and related programs administered by the Federal Government and such State, particularly low-income energy-related programs under subtitle B of title VI (relating to community services block grant program), under the supplemental security income program, under part A of title IV of the Social Security Act, under title XX of the Social Security Act, under the low-

income weatherization assistance program under title IV of the Energy Conservation and Production Act, or under any other provision of law which carries out programs which were administered under the Economic Opportunity Act of 1964 before the date of the enactment of this Act;

(5) provide, in a timely manner, that the highest level of assistance will be furnished to those households which have the lowest incomes and the highest energy costs or needs in relation to income, taking into account family size, except that the State may not differentiate in implementing this section between the households described in clauses 2(A) and 2(B) of this subsection;

(6) to the extent it is necessary to designate local administrative agencies in order to carry out the purposes of this title, to give special consideration, in the designation of such agencies, to any local public or private nonprofit agency which was receiving Federal funds under any low-income energy assistance program or weatherization program under the Economic Opportunity Act of 1964 or any other provision of law on the day before the date of the enactment of this Act, except that--

(A) the State shall, before giving such special consideration, determine that the agency involved meets program and fiscal requirements established by the State; and

(B) if there is no such agency because of any change in the assistance furnished to programs for economically disadvantaged persons, then the State shall give special consideration in the designation of local administrative agencies to any successor agency which is operated in substantially the same manner as the predecessor agency which did receive funds for the Federal fiscal year preceding the Federal fiscal year for which the determination is made;

(7) if the State chooses to pay home energy suppliers directly, establish procedures to--

(A) notify each participating household of the amount of assistance paid on its behalf;

(B) assure that the home energy supplier will charge the eligible household, in the normal billing process, the difference between the actual cost of the home energy and the amount of the payment made by the State under this title;

(C) assure that the home energy supplier will provide assurances that any agreement entered into with a home energy supplier under this paragraph will contain provisions to assure that no household receiving assistance under this title will be treated adversely because of such assistance under applicable provisions of State law or public regulatory requirements; and

(D) ensure that the provision of vendor payments remains at the option of the State in consultation with local grantees and may be contingent on unregulated vendors taking appropriate measures to alleviate the energy burdens of eligible households, including providing for agreements between suppliers and individuals eligible for benefits under this Act that seek to reduce home energy costs, minimize the risks of home energy crisis, and encourage regular payments by individuals receiving financial assistance for home energy costs;

(8) provide assurances that--

(A) the State will not exclude households described in clause (2)(B) of this subsection from receiving home energy assistance benefits under clause (2), and

(B) the State will treat owners and renters equitably under the program assisted under this title;

(9) provide that--

(A) the State may use for planning and administering the use of funds under this title an amount not to exceed 10 percent of the funds payable to such State under this title for a Federal fiscal year; and

(B) the State will pay from non-Federal sources the remaining costs of planning and administering the program assisted under this title and will not use Federal funds for such remaining cost (except for the costs of the activities described in paragraph (16));

(10) provide that such fiscal control and fund accounting procedures will be established as may be necessary to assure the proper disbursement of and accounting for Federal funds paid to the State under this title, including procedures for monitoring the assistance provided under this title, and provide that the State will comply with the provisions of chapter 75 of title 31, United States Code (commonly known as the "Single Audit Act");

(11) permit and cooperate with Federal investigations undertaken in accordance with section 2608;

(12) provide for timely and meaningful public participation in the development of the plan described in subsection (c);

(13) provide an opportunity for a fair administrative hearing to individuals whose claims for assistance under the plan described in subsection (c) are denied or are not acted upon with reasonable promptness; and

(14) cooperate with the Secretary with respect to data collecting and reporting under section 2610.

(15) beginning in Federal fiscal year 1992, provide, in addition to such services as may be offered by State Departments of Public Welfare at the local level, outreach and intake functions for crisis situations and heating and cooling assistance that is administered by additional State and local governmental entities or community-based organizations (such as community action agencies, area agencies on aging and not-for-profit neighborhood-based organizations), and in States where such organizations do not administer functions as of September 30, 1991, preference in awarding grants or contracts for intake services shall be provided to those agencies that administer the low-income weatherization or energy crisis intervention programs.

* This assurance is applicable only to States, and to territories whose annual regular LIHEAP allotments exceed \$200,000. Neither territories with annual allotments of \$200,000 or less nor Indian tribes/tribal organizations are subject to Assurance 15.

(16) use up to 5 percent of such funds, at its option, to provide services that encourage and enable households to reduce their home energy needs and thereby the need for energy assistance, including needs assessments, counseling, and assistance with energy vendors, and report to the Secretary concerning the impact of such activities on the number of households served, the level of direct benefits provided to those households, and the number of households that remain unserved.

Subrecipient shall notify each participating household of the amount of assistance paid on its behalf. Subrecipient shall document this notification. Subrecipient shall maintain proof of utility or fuel bill payment. Subrecipient shall ensure that amount of assistance paid on behalf of customer is deducted from customer's rent.)

Explanations of policies for each “yes” checked above for Older Adults and for individuals with a disability, young children, high energy burden, and high energy consumption:

10 TAC §6.307(e) states “Subrecipients must establish a written procedure to serve Households that have a Vulnerable Population Household member, Households with High Energy Burden, and Households with High Energy Consumption. High Energy Burden shall be the highest rated item in sliding scale priority

determinations. The Subrecipient must maintain documentation of the use of the criteria.” The state will provide a written procedure to a statewide or regional contractor.

Determination of Benefits, 2605(b)(5) – Assurance 5, 2605(c)(1)(B)

2.4 Describe how you prioritize the provision of heating assistance to vulnerable households, e.g., benefit amounts, application period, etc.

Subrecipients and statewide or regional contractors use a rating system which determines priority based on persons in Households who are particularly vulnerable such as the Elderly, Persons with Disabilities, Households with Young Children, Households with High Energy Burden, and Households with High Energy Consumption. Benefit amounts are determined on a sliding scale based on the Household’s income. Households with the presence of a vulnerable member such as the Elderly, Persons with Disabilities, and Households with Young Children do not have a limit on the number of benefit payments, but adhere to the same benefit amounts. The maximum benefit amount is determined per program year based on the Household’s heating and cooling need and is not required to be applied equally to heating and cooling costs.

2.5 Check the variables you use to determine your benefit levels. (Check all that apply):

- Income
- Family (household) size
- Home energy cost or need:
 - Fuel type
 - Climate/region
 - Individual bill
 - Dwelling type
 - Energy burden (% of income spent on home energy)
 - Energy need
 - Other (Describe:)

Other: Subrecipient must make utility payments on behalf of Households based on the previous 12 month's home energy consumption history, including allowances for cost inflation. If a 12 month's home energy consumption history is unavailable, Subrecipient must base payments on a Department approved alternative billing method. If neither a 12 month’s home energy consumption history nor an approved alternative billing method exists, then Subrecipient may base payments on current bill. Subrecipient will note such exceptions in customer files. Benefit amounts exceeding the actual bill shall be treated as a credit for the customer with the utility company. The Department recommends an ABM where the Subrecipient determines the average consumption amount (kWh, therms, MCF, gallons, etc.) per month, for each household size and type based on a minimum sample size of 30 files that contain complete billing histories; however, if it is not possible for subrecipients to obtain the recommended 30 file per household sample size to create an average consumption amount, Subrecipients should use all the applicable files to determine the average consumption and document the lack of files for that household size. Subrecipients can propose other types of ABMs. The state will provide statewide or regional contractors other types of ABMs, if required. The ABM proposed by the Subrecipient must be approved by the Department prior to utilization.

Benefit Levels, 2605(b)(5) – Assurance 5, 2605(c)(1)(B)

2.6 Describe estimated benefit levels for FY 2024:

\$1 Minimum benefit \$12,600 Maximum benefit

Note: The State of Texas does not have a minimum benefit amount. The amount of benefit/assistance indicates \$1.00 because the OLDC system requires that a figure be inserted in the minimum amount.

The maximum benefit amount per household is \$12,600 per program year and could be reached if a household received up to \$1,800 in Crisis Assistance, \$1,800 in Utility Assistance, and a \$9,000 purchase, repair or replacement of a heating or cooling unit or crisis-related purchase of portable cooling and/or hearing units/window units/evaporative coolers/mini splits. The initial assistance payment that would include arrears does not count towards the annual benefit cap for a household.

The amount of benefit/assistance that an applicant is eligible for is based on their level of household income. Per 10 TAC §6.309(e), Households with incomes 0-50% of Federal Poverty Income Guidelines (FPIG) have a maximum of \$1,800 for the Utility Assistance Component and the Crisis Assistance Component; Households with incomes more than 50% but at or below 75% FPIG have a maximum of \$1,500 per Component; Households with incomes more than 75% but at or below 150% FPIG have a maximum of \$1,200 per Component; and there is a maximum of up to \$9,000 for the purchase, service or repair of heating and cooling units, replacement of irreparable existing heating and cooling unit components, or the purchase of portable cooling and/or hearing units/window units/evaporative coolers/mini splits depending on the classification of the household as vulnerable or non-vulnerable and whether a crisis exists. Subrecipients should attempt to repair individual components of a system; if a component(s) of the heating or cooling system cannot be repaired using parts, the Subrecipient can replace the component(s) in order to repair the heating or cooling system. The Department allows payment of 100% of a customer's annual usage in one lump sum payment. See 10 TAC §6.309, §6.310, and §6.311 for details.

2.7 Do you provide in-kind (e.g., blankets, space heaters) and/or other forms of benefits?

Yes No -- If yes, describe.

Under 10 TAC §6.310(c) Crisis Assistance Component, low income households may also be eligible for the following:

- 1) Emergency deliveries of fuel up to 250 gallons per crisis per Household including coverage for tank pressure testing;
- 2) Utility reconnection costs;
- 3) Blankets;
- 4) For Non-Vulnerable Populations, service and repair of existing heating and cooling units is allowed when the Household has an inoperable heating or cooling system or the system is not functioning according to its intended purpose;
- 5) For Households meeting the definition of Life-Threatening Crisis, purchase of portable cooling and/or heating units, window units, evaporative coolers, and mini splits is allowable;
- 6) Fans; and
- 7) Generators.

When Disasters result in energy supply shortages or other energy-related emergencies, eligible households may also receive assistance to cover the cost of temporary shelter or transportation. For a complete description and more detail concerning these benefits and their eligibility requirements, refer to 10 TAC §6.310.

Per §6.310(d), eligible households may receive temporary shelter not to exceed the annual household expenditure limit for the duration of the contract period in the limited instances when Disasters result in energy supply shortages or other energy-related emergencies. Additionally, eligible households that have lost service or are in immediate danger of losing service and fall under an Extreme Weather Condition, a Disaster, or a Life Threatening Crisis as defined under §6.310(a), may receive other types of assistance such as emergency deliveries of fuel up to 250 gallons per crisis per Household, blankets, fans, and generators, if necessary.

Section 3: COOLING ASSISTANCE

Eligibility, 2605(c)(1)(A), 2605(b)(2) – Assurance 2

3.1 Designate the income eligibility threshold used for the cooling component:

#	Household Size	Eligibility Guidelines	Eligibility Threshold
1	All Household Sizes	USHHS Poverty Guidelines	150%

3.2 Do you have additional eligibility requirements for **COOLING ASSISTANCE**

Yes No

NOTE: 10 TAC §6.307(f) states: “A Dwelling Unit cannot be served if the meter is utilized by another Household that is not part of the application for assistance. In instances where separate structures share a meter and the applicant is otherwise eligible for assistance, Subrecipient must provide services if: (1) the members of the separate structures that share a meter meet the definition of a Household per §6.2 of this Chapter (relating to Definitions); (2) the members of the separate structures that share a meter submit one application as one Household; and (3) all persons and applicable income from each structure are counted when determining eligibility.”

- Young children?
- Households with high energy burdens?
- Other?
Households with high energy consumption

Explanations of policies for each “yes” checked above for Older Adults, individuals with a disability, young children, high energy burden, and high energy consumption:

10 TAC §6.307(e) states “Subrecipients must establish a written procedure to serve Households that have a Vulnerable Population Household member, Households with High Energy Burden, and Households with High Energy Consumption. High Energy Burden shall be the highest rated item in sliding scale priority determinations. The Subrecipient must maintain documentation of the use of the criteria.” The state will provide a written procedure to a statewide or regional contractor.

3.4 Describe how you prioritize the provision of cooling assistance to vulnerable households, e.g., benefit amounts, application periods, etc.

Subrecipients and statewide or regional contractors use a rating system which determines priority based on persons in Households who are particularly vulnerable such as the Elderly, Persons with Disabilities, Families with Young Children, Households with High Energy Burden, and Households with High Energy Consumption. Benefit amounts are determined on a sliding scale based on the Household’s income. Households with the presence of a vulnerable member such as the Elderly, Persons with Disabilities, and Households with Young Children do not have a limit on the number of benefit payments, but adhere to the same benefit amounts. The maximum benefit amount is determined per-program year based on Household’s heating and cooling needs and is not required to be applied equally to heating and cooling costs.

Determination of Benefits, 2605(b)(5) – Assurance 5, 2605(c)(1)(B)

3.5 Check the variables you use to determine your benefit levels. (Check all that apply):

- Income
- Family (household) size
- Home energy cost or need
 - Fuel type
 - Climate/region
 - Individual bill
 - Dwelling type
 - Energy burden (% of income spent on home energy)
 - Energy need
 - Other (describe)

Other: Subrecipient must make utility payments on behalf of Households based on the previous 12 month's home energy consumption history, including allowances for cost inflation. If a 12 month's home energy consumption history is unavailable, Subrecipient must base payments on a Department approved alternative billing method. If neither a 12 month’s home energy consumption history nor an approved alternative billing method exists, then Subrecipient may base payments on current bill. Subrecipient will note such exceptions in customer files. Benefit amounts exceeding the actual bill shall be treated as a credit for the customer with the utility

company. The Department recommends an ABM where the Subrecipient determines the average consumption amount (kWh, therms, MCF, gallons, etc.) per month, for each household size and type based on a minimum sample size of 30 files that contain complete billing histories; however, if it is not possible for subrecipients to obtain the recommended 30 file per household sample size to create an average consumption amount, Subrecipients should use all the applicable files to determine the average consumption and document the lack of files for that household size. Subrecipients can propose other types of ABMs. The ABM proposed by the Subrecipient must be approved by the Department prior to utilization.

Benefit Levels, 2605(b)(5) – Assurance 5, 2605(c)(1)(B)

3.6 Describe benefit levels:

\$1 Minimum benefit \$12,600 Maximum benefit

Note: The State of Texas does not have a minimum benefit amount. The amount of benefit/assistance indicates \$1.00 because the OLDC system requires that a figure be inserted in the minimum amount.

The maximum benefit amount per household is \$12,600 per program year and could be reached if a household received up to \$1,800 in Crisis Assistance, \$1,800 in Utility Assistance, and a \$9,000 purchase, repair or replacement of a heating or cooling unit or crisis-related purchase of portable cooling and/or hearing units/window units/evaporative coolers/mini splits. The initial assistance payment that would include arrears does not count towards the annual benefit cap for a household.

The amount of benefit/assistance that an applicant is eligible for is based on their level of household income. Per 10 TAC §6.309(e), Households with incomes 0-50% of Federal Poverty Income Guidelines (FPIG) have a maximum of \$1,800 for the Utility Assistance Component and the Crisis Assistance Component; Households with incomes more than 50% but at or below 75% FPIG have a maximum of \$1,500 per Component; Households with incomes more than 75% but at or below 150% FPIG have a maximum of \$1,200 per Component; and there is a maximum of up to \$9,000 for the purchase, service or repair of heating and cooling units, replacement of irreparable existing heating and cooling unit components, or the purchase of portable cooling and/or hearing units/window units/evaporative coolers/mini splits depending on the classification of the household as vulnerable or non-vulnerable and whether a crisis exists. Subrecipients should attempt to repair individual components of a system; if a component(s) of the heating or cooling system cannot be repaired using parts, the Subrecipient can replace the component(s) in order to repair the heating or cooling system. The Department allows payment of 100% of a customer's annual usage in one lump sum payment. See 10 TAC §6.309, §6.310, and §6.311 for details.

3.7 Do you provide in-kind (e.g., fans, air conditioners) and/or other forms of benefits?

Yes No -- If yes, describe.

Under 10 TAC §6.310(c) Crisis Assistance Component, low income households may also be eligible for the following:

- 1) Emergency deliveries of fuel up to 250 gallons per crisis per Household including coverage for tank pressure testing;
- 2) Utility reconnection costs;

- 3) Blankets;
- 4) For Non-Vulnerable Populations, service and repair of existing heating and cooling units is allowed when the Household has an inoperable heating or cooling system or the system is not functioning according to its intended purpose;
- 5) For Households meeting the definition of Life-Threatening Crisis, purchase of portable cooling and/or heating units, window units, evaporative coolers, and mini splits is allowable;
- 6) Fans; and
- 7) Generators.

When Disasters result in energy supply shortages or other energy-related emergencies, eligible households may also receive assistance to cover the cost of temporary shelter or transportation. For a complete description and more detail concerning these benefits and their eligibility requirements, refer to 10 TAC §6.310.

Per 10 TAC §6.310(d), eligible households may receive temporary shelter not to exceed the annual household expenditure limit for the duration of the contract period in the limited instances when Disasters result in energy supply shortages or other energy-related emergencies. Additionally, eligible households that have lost service or are in immediate danger of losing service and fall under an Extreme Weather Condition, a Disaster, or a Life Threatening Crisis as defined under 10 TAC §6.310(a), may receive other types of assistance such as emergency deliveries of fuel up to 250 gallons per crisis per Household, blankets, fans, and generators, if necessary.

Section 4: CRISIS ASSISTANCE

Eligibility - 2604(c), 2605(c)(1)(A)

4.1 Designate the income eligibility threshold used for the crisis component:

#	Household Size	Eligibility Guidelines	Eligibility Threshold	
1	All Household Sizes	USHHS Poverty Guidelines	150%	

4.2 Provide your LIHEAP program’s definition for determining a crisis.

Crisis Assistance can be provided to persons who have already lost service or are in immediate danger of losing service only under one of the following conditions, as defined in 10 TAC §6.301 (relating to Background and Definitions):

- (1) Extreme Weather Conditions, with assistance provided within 48 hours;
- (2) Disaster, with assistance provided within 48 hours; or
- (3) Life Threatening Crisis, with assistance provided within 18 hours.

4.3 What constitutes a life-threatening crisis?

A Life Threatening Crisis exists when the life of at least one person in the applicant Household who is a U.S. Citizen, U.S. National, or a Qualified Alien would likely, in the opinion of a reasonable person, be endangered if utility assistance or heating and cooling assistance is not provided. Examples of life endangerment include, but are not limited to, a Household member who needs electricity for life-sustaining equipment (e.g., kidney dialysis machines, oxygen concentrators, medicinal refrigeration and cardiac monitors); a Household member whose medical professional has prescribed that the ambient air temperature be maintained at a certain temperature; a Household member whose life is endangered if

absence of heating or cooling were to continue; or the presence of noxious gases as a result of heating or cooling the Dwelling Unit. In cases concerning an applicant's medical condition or need for life-sustaining equipment, documentation must not be requested about the medical condition of the applicant but the applicant must affirm that such a device is required in the Dwelling Unit because of a life threatening illness or risk of death.

Crisis Requirements, 2604(c)

4.4 Within how many hours do you provide an intervention that will resolve the energy crisis for eligible households? 48 Hours

4.5 Within how many hours do you provide an intervention that will resolve the energy crisis for eligible households in life-threatening situations? 18 Hours

NOTE: Pursuant to §2604(c)(2) of the LIHEAP Statute, the Department provides “some form of assistance that will resolve the energy crisis” not later than 18 hours after a household applies for crisis benefits if such household is eligible to receive such benefits and is in a life-threatening situation.

Explanation for Other: Crisis Assistance can be provided to persons who have already lost service or are in immediate danger of losing service only under one of the following conditions, as defined in 10 TAC §6.301 (relating to Background and Definitions):

- (1) Extreme Weather Conditions, with assistance provided within 48 hours;

- (3) Life Threatening Crisis, with assistance provided within 18 hours.

● Do you have additional/differing eligibility policies for:

- Renters?
- Renters living in subsidized housing?
- Renters with utilities included in the rent?

NOTE: Per 10 TAC §6.309(i)(7), Subrecipient may make payments to landlords on behalf of eligible renters who pay their utility and/or fuel bills indirectly. Subrecipient shall notify each participating household of the amount of assistance paid on its behalf. Subrecipient shall document this notification. Subrecipient shall maintain proof of utility or fuel bill payment. Subrecipient shall ensure that amount of assistance paid on behalf of customer is deducted from client's rent.

Explanation for “yes” responses: The maximum benefit amount per household is \$12,600 per program year and could be reached if a household received up to \$1,800 in Crisis Assistance, \$1,800 in Utility Assistance, and a \$9,000 purchase, repair or replacement of a heating or cooling unit or crisis-related purchase of portable cooling and/or hearing units/window units/evaporative coolers/mini splits. The initial assistance payment that would include arrears does not count towards the annual benefit cap for a household.

The amount of benefit/assistance that an applicant is eligible for is based on their level of household income. Per 10 TAC §6.309(e), Households with incomes 0-50% of Federal Poverty Income Guidelines (FPIG) have a maximum of \$1,800 for the Utility Assistance Component and the Crisis Assistance Component; Households with incomes more than 50% but at or below 75% FPIG have a maximum of \$1,500 per Component; Households with incomes more than 75% but at or below 150% FPIG have a maximum of \$1,200 per Component; and there is a maximum of up to \$9,000 for the purchase, service or repair of heating and cooling units, replacement of irreparable existing heating and cooling unit components, or the purchase of portable cooling and/or hearing units/window units/evaporative coolers/mini splits depending on the classification of the household as vulnerable or non-vulnerable and whether a crisis exists. Subrecipients should attempt to repair individual components of a system; if a component(s) of the heating or cooling system cannot be repaired using parts, the Subrecipient can replace the component(s) in order to repair the heating or cooling system. The Department allows payment of 100% of a customer’s annual usage in one lump sum payment. See 10 TAC §6.309, §6.310, and §6.311 for details.

Crisis Requirements, 2604(c)

4.10 Do you accept applications for energy crisis assistance at sites that are geographically accessible to all households in the area to be served?

Yes No

Explain: In addition to what is already stated in Section 2604(c)(3) of the LIHEAP Statute regarding the requirement that each Subrecipient accept applications at sites that are geographically accessible to all Households in the area to be served, 10 TAC §6.313(c) states “Subrecipient shall handle Reasonable Accommodation requests, in accordance with §1.204 of this title (relating to Reasonable Accommodations).” 10 TAC §1.204 (b) General Considerations in Handling of Reasonable Accommodations. An applicant, participant, or occupant who has a disability may request an accommodation and, depending on the program funding the property or activity and whether the accommodation requested is a reasonable accommodation, their request must be timely addressed.”

4.11 Do you provide individuals who have physical disabilities the means to:

■ Submit applications for crisis benefits without leaving their homes?

Yes No If no, explain.

Applications can be mailed in. In some cases, applications may be completed online or the organization will go to the applicant’s home to take the application.

In addition to what is already stated in Section 2604(c)(3) of the LIHEAP Statute regarding the requirement that each Subrecipient accept applications at sites that are geographically accessible to all Households in the area to be served, 10 TAC §6.313(c) states “Subrecipient shall handle Reasonable Accommodation requests, in accordance with §1.204 of this title (relating to Reasonable Accommodations).” 10 TAC §1.204 (b) General Considerations in Handling of Reasonable Accommodations. Benefit Levels, 2605(c)(1)(B)

4.12 Indicate the maximum benefit for each type of crisis assistance offered.

Winter Crisis \$ 0 maximum benefit

Summer Crisis \$ 0 maximum benefit

Year-round Crisis \$1,800 maximum benefit

4.13 Do you provide in-kind (e.g., blankets, space heaters, fans) and/or other forms of benefits?

Yes No If yes, describe.

If a component(s) of the heating or cooling system cannot be repaired using parts, the Subrecipient and statewide or regional contractors can replace the component(s) in order to repair the heating or cooling system under the Utility Assistance Component for Vulnerable Households or Crisis Assistance Component for Non-Vulnerable Households. Where replacement is required, use of Energy Star heating and/or cooling units must be prioritized. Manual J procedures will be used to confirm that the units are appropriately sized.

LIHEAP will allow home energy related expenditures as described in 10 TAC §6.310(c).

All Households experiencing a Life-Threatening Crisis may be eligible to receive portable cooling and/or heating units/window units/evaporative coolers/mini splits (portable electric heaters are allowable only as a last resort).

Under 10 TAC §6.310(c) Crisis Assistance Component, low income households may also be eligible for the following:

- 1) Emergency deliveries of fuel up to 250 gallons per crisis per Household including coverage for tank pressure testing;
- 2) Utility reconnection costs;
- 3) Blankets;
- 4) For Non-Vulnerable Populations, service and repair of existing heating and cooling units is allowed when the Household has an inoperable heating or cooling system or the system is not functioning according to its intended purpose;
- 5) For Households meeting the definition of Life-Threatening Crisis, purchase of portable cooling and/or heating units, window units, evaporative coolers, and mini splits is allowable;
- 6) Fans; and
- 7) Generators.

Per §6.310(d), eligible households may receive temporary shelter not to exceed the annual household expenditure limit for the duration of the contract period in the limited instances when Disasters result in energy supply shortages or other energy-related emergencies. Additionally, eligible households that have lost service or are in immediate danger of losing service and fall under an Extreme Weather Condition, a

Disaster, or a Life Threatening Crisis as defined under §6.310(a), may receive other types of assistance such as emergency deliveries of fuel up to 250 gallons per crisis per Household, blankets, fans, and generators, if necessary.

When Disasters result in energy supply shortages or other energy-related emergencies, eligible households may also receive assistance to cover the cost of temporary shelter or transportation. For a complete description and more detail concerning these benefits and their eligibility requirements, refer to 10 TAC §6.310.

4.14 Do you provide for equipment repair or replacement using crisis funds?

Purchase of a heating and/or cooling unit up to \$9,000 is allowable if a heating or cooling system is nonexistent. For Households who do not have a member of a Vulnerable Population, such assistance is limited to times when a Crisis exists as defined in 10 TAC §6.310(a). 4.16 Do any of the utility vendors you work with enforce a winter moratorium on shut offs? If you respond "Yes" to question 4.16, you must respond to question 4.17. Yes No

4.17 Describe the terms of the moratorium and any special dispensation received by LIHEAP clients during or after the moratorium period.

Specific to energy assistance clients, §25.483(i) of the Texas Public Utilities Commission rules provides that a Retail Electric Provider (REP) shall not authorize a disconnection for nonpayment of electric service to a delinquent residential customer for a billing period in which the REP receives a pledge, letter of intent, purchase order, or other notification that the energy assistance provider is forwarding sufficient payment

to continue service provided that such pledge, letter of intent, purchase order, or other notification is received by the due date stated on the disconnection notice, and the customer, by the due date on the disconnection notice, either pays or makes payment arrangements to pay any outstanding debt not covered by the energy assistance provider. Additionally, the rule provides that if an energy assistance provider has requested monthly usage data pursuant to §25.472(b)(4) (relating to Privacy of Customer Information), the REP shall extend the final due date on the disconnection notice, day for day, from the date the usage data was requested until it is provided; and that a REP shall allow at least 45 days for an energy assistance provider to honor a pledge, letter of intent, purchase order, or other notification before submitting the disconnection request to the TDU.

There are protections for several other categories of clients and situations applicable to LIHEAP clients served:

§25.483(g) provides that a REP shall not authorize a disconnection for nonpayment of electric service at a permanent, individually metered dwelling unit of a delinquent Critical Care Residential Customer when that customer establishes that disconnection of service will cause some person at that residence to become seriously ill or more seriously ill.

§25.483(h) provides that a REP shall not authorize a disconnection for nonpayment of electric service at a permanent, individually metered dwelling unit of a delinquent customer when that customer has been designated as a Chronic Condition Residential Customer pursuant to 25.497 with noted rule exceptions.

§25.483(j) provides that a REP shall not authorize a disconnection for nonpayment of electric service for any customer in a county in which an extreme weather emergency occurs. A REP shall offer residential customers a deferred payment plan upon request by the customer that complies with the requirements of 25.480 (relating to Bill Payment and Adjustments) for bills that become due during the weather emergency. The term “extreme weather emergency” shall mean a day when:

(A) the previous day’s highest temperature did not exceed 32 degrees Fahrenheit, and the temperature is predicted to remain at or below that level for the next 24 hours anywhere in the county, according to the nearest National Weather Service (NWS) reports; or

(B) the NWS issues a heat advisory for a county, or when such advisory has been issued on any one of the preceding two calendar days in a county.

4.18 If you experience a natural disaster, do you intend to utilize LIHEAP crisis funds to address disaster related crisis situations?

Yes No

Subrecipients are able to utilize LIHEAP for assistance during a Disaster in compliance with 10 TAC §6.310:

(d) When Disasters result in energy supply shortages or other energy-related emergencies or have lost service or are in immediate danger of losing service, CEAP will allow home energy related expenditures for:

(1) Temporary Shelter in the limited instances that supply of power to the Dwelling Unit is disrupted or in immediate danger of losing services causing a temporary evacuation.

(2) Cost to temporary Shelter or house individuals in hotel, apartments or other living situations in which homes have been destroyed or damaged when health and safety is endangered by loss of access to heating and cooling.

(3) Costs for transportation (e.g., cars, shuttles, buses) to move the individuals away from the crisis area to Shelters when health and safety is endangered by loss of access to heating and cooling.

Section 5: WEATHERIZATION ASSISTANCE

Eligibility, 2605(c)(1)(A), 2605(b)(2) – Assurance 2

5.1 Designate the income eligibility threshold used for the weatherization component:

#	Household Size	Eligibility Guidelines	Eligibility Threshold
1	All Household Sizes	USHHS Poverty Guidelines	150%
2		State	

5.2 Do you enter into an interagency agreement to have another government agency administer a **WEATHERIZATION component?** Yes No

5.3 If yes, name the agency. N/A

5.4 Is there a separate monitoring protocol for weatherization? Yes No

WEATHERIZATION - Types of Rules

5.5 Under what rules do you administer LIHEAP weatherization? (Check only one.)

Entirely under LIHEAP (not DOE) rules

Entirely under DOE WAP (not LIHEAP) rules

Mostly under LIHEAP rules with the following DOE WAP rule(s) where LIHEAP and WAP rules differ: (Check all that apply.)

Income Threshold

Weatherization of entire multi-family housing structure is permitted if at least 66% of units (50% in 2- & 4-unit buildings) are eligible units or will become eligible within 180 days.

Weatherization of shelters temporarily housing primarily low-income persons (excluding nursing homes, prisons, and similar institutional care facilities).

Other (describe):

- When leveraging with DOE funding, subrecipients may weatherize units up to 200% FPIG.
- If Subrecipient leverages LIHEAP with any DOE weatherization funds, all federal and state rules and current Weatherization Program Notice (WPN) requirements will apply, including but not limited to income calculation requirements as outlined in applicable DOE WPNs or updated Income Determination Notices in accordance with State Rules. An exception applies when addressing optional measures under the

LIHEAP priority list in cases where no compliant equipment is manufactured.

- Adhere to language from the Consolidated Appropriations Act of 2021 that Paragraph (2) of Section 415(c) of the Energy Conservation and Production Act (42 USC 6865(c)) is amended to allow re-weatherization for a dwelling unit not previously weatherized using federal funds until the date that is 15 years after the date such previous weatherization has passed.
- 10 TAC Part 1, Chapter 6, Subchapter D, Weatherization Assistance Program, is one area where the LIHEAP funded weatherization program adheres to DOE regulations.
- TDHCA uses a priority list for LIHEAP households at 150% or below USHHS poverty income level. A Department approved LIHEAP Priority list or a DOE approved Priority List, updated when applicable, provides the prescribed method to be used by Subrecipients when addressing weatherization measures.
- Energy-related home repair: TDHCA will allow the use of LIHEAP weatherization funds for incidental repairs only if required to enable effective weatherization.
- If LIHEAP funds are included in a DOE unit, the energy audit, or applicable priority list(s), must be used to justify all measures.
- TDHCA will allow, with written permission, LIHEAP WAP funds to be used in the weatherization of DOE Identified HUD and USDA properties using DOE income calculation requirements and Income Determination (i.e., 200% Federal Poverty Income Guidelines).

Mostly under DOE WAP rules, with the following LIHEAP rule(s) where LIHEAP and WAP rules differ: (Check all that apply.)

- Income Threshold.
- Weatherization not subject to DOE WAP maximum statewide average cost per dwelling unit.
- Weatherization measures are not subject to DOE Savings to Investment Ratio (SIR) standards.
- Other (describe)

Explanation: Households with high energy consumption

Explanation for Yes responses:

10 TAC §6.406(c) states “Subrecipients must establish a written procedure to serve Households that have a Vulnerable Population Household member, Households with High Energy Burden, and Households with High Energy Consumption. High Energy Burden shall be the highest rated item in sliding scale priority determinations. The Subrecipient must maintain documentation of the use of the criteria.” The state will provide a written procedure to a statewide or regional contractor.

Subrecipients and statewide or regional contractors use a rating system which determines priority based on persons in Households who are particularly vulnerable such as the Elderly, Persons with Disabilities, Families with Young Children, Households with High Energy Burden, and Households with High Energy Consumption.

Other (specify): LIHEAP Subrecipients are to conduct outreach related to the utility assistance program and other assistance provided with the LIHEAP grant. The Department encourages Subrecipients to conduct outreach through various methods to inform people without internet services about the LIHEAP utility assistance program. Entities to be informed include, but is not limited to, units of government, local non-profits, charitable organizations, and churches. Other ways that persons are to be informed is through utility vendors who include information in client bills about the LIHEAP utility assistance program and the State's phone number to contact if they need utility assistance. Some utility vendors may inform customers and persons who are pending disconnection or who have had their services disconnected about the LIHEAP provider serving their area or provide them with the State phone number to contact. LIHEAP Subrecipients also are to use social media and periodically run radio announcements and newspaper ads.

7.1 Describe how you will ensure that the LIHEAP program is coordinated with other programs available to low-income households (TANF, SSI, WAP, etc.)

Note for 8.5: In the USHHS-OLDC system where the State Plan is entered, it only allows states to select one type of entity. The Department will select Nonprofits; although we will also contract with Units of government and CAAs.

8.6 What is your process for selecting local administering agencies?

The Department ensures that to the extent it is necessary to designate local administrative agencies in order to carry out the purposes of Title 42 U.S.C. §§8621, et seq. special consideration is given to any local public or private nonprofit agency which was receiving CSBG or LIHEAP funds.

(1) The Department before giving such special consideration, determines that the agency involved meets program and fiscal requirements established by law and by the Department; and

(2) if there is no such agency because of any change in the assistance furnished to programs for economically disadvantaged persons, then the Department gives special consideration in the designation of local administrative agencies to any successor agency which is operated in substantially the same manner as the predecessor agency which did receive funds for the fiscal year preceding the fiscal year for which the determination is made.

Currently, the Department administers all aspects of program delivery through subrecipients and statewide/regional contractors that have demonstrated they are operating the program in accordance with the Economic Opportunity Act of 1964, the Low-Income Home Energy Assistance Act of 1981, as amended (42 U.S.C. §§8621, et seq.), and Department rules. If subrecipients and statewide/regional contractors are successfully administering the program, the Department may offer to renew the contract. However, in order to achieve full expenditure of funding, the Department may reallocate funds that have been voluntarily relinquished or deobligated in compliance with TAC rule §6.304. Additionally, if the State receives a large supplemental appropriation for LIHEAP, the Department may allocate some or all of the funds to a statewide or regional contractor.

If the Department determines that an organization is not administering the program satisfactorily, corrective actions are taken to remedy the problem. Thereafter, if a Subrecipient fails to administer the program correctly, the Department may proceed with the process provided for in Department rules of removing funds and reassign the service area or a portion to another existing Subrecipient or conduct solicitation or selection of a new Subrecipient in accordance with the Low-Income Home Energy Assistance Act of 1981. The affected Subrecipient may request a hearing in accordance with §2105.204 of the Texas Government Code.

However, the Department retains the right to go through a procurement process for some or all aspects of the LIHEAP program.

8.7 How many local administering agencies do you use? 35

The administering Subrecipient/contractor informs them once the determination is made.

9.3 How do you assure that the home energy supplier will charge the eligible household, in the normal billing process, the difference between the actual cost of the home energy and the amount of the payment?

Vendor agreements are used in all components. The Department provides Subrecipients and statewide or regional contractors with a Department approved Vendor Agreement to utilize. The document can be found at the Department's website at <https://www.tdhca.texas.gov/comprehensive-energy-assistance-program-ceap-program-guidance>

A tentative schedule is attached as requested, but is subject to change based on quarterly risk-based assignments.

10.7 Describe how you select local agencies for monitoring reviews?

On-site monitoring visits and desk reviews are mechanisms used for in-depth investigation and overall assessment, respectively. The Department will conduct on-site monitoring reviews and desk reviews of contracts based on an assessment of risk of non-compliance with program requirements. Monitors review necessary program documents and financial records through desk reviews and on-site reviews. LIHEAP Subrecipients and statewide or regional contractors are monitored (for prior year funding) at least once every three years. This is a component of the risk assessment score. If a Subrecipient also has Community Service Block Grant funds, the LIHEAP monitoring may be done at the same time. Subrecipients and statewide or regional contractors that leverage LIHEAP funds with DOE funds for weatherization are subject to a programmatic, fiscal, and unit inspection review according to the DOE monitoring schedule (once a year). Contracts may also be selected for monitoring based on other factors, such as prior monitoring findings, issues noted in the Single Audit, complaints, and/or special requests.

10.8 How often is each local agency monitored? At least once every three years.

10.9 How many local agencies are currently on corrective action plans? (Number only) 1

12.4 Describe your fair hearing procedures for households whose applications are denied and or not acted upon in a timely manner.

An Applicant requests a hearing with the Subrecipient and statewide or regional contractors initially. If not satisfied with the results of the Subrecipient's and statewide or regional contractor's hearing, the Applicant then appeals to the Texas Department of Housing and Community Affairs to conduct a review of the subrecipient's decision. If still not satisfied, the applicant can then request a contested hearing

under Tex. Gov't Code, Chapter 2001 which is conducted by the State Office of Administrative Hearings on behalf of the Department.

Subrecipient contracts include the following section:

APPEALS PROCESS

In compliance with the LIHEAP Act, Subrecipient must provide an opportunity for a fair administrative hearing to individuals whose application for assistance is denied, terminated or not acted upon in a timely manner. Subrecipient must establish a denial of service complaint procedure in accordance with 10 TAC §6.8 of the State Rules. The rule states:

(b) Subrecipient shall establish a denial of service complaint procedure to address written complaints from program applicants/customers. At a minimum, the procedures described in paragraphs (b)(1) - (8) of this subsection shall be included:

(1) Subrecipients shall provide a written denial of assistance notice to applicant within ten (10) calendar days of the determination. Such a determination is defined as a denial of assistance, but does not include a level of assistance lower than the possible program limits or a reduction in assistance, as long as such process is in accordance with the Subrecipient's written policy. This notification shall include written notice of the right of a hearing and specific reasons for the denial by program. The applicant wishing to appeal a decision must provide written notice to Subrecipient within twenty (20) days of receipt of the denial notice.

(2) A Subrecipient must establish an appeals committee composed of at least three persons. Subrecipient shall maintain documentation of appeals in their customer files.

(3) Subrecipients shall hold a private appeal hearing (unless otherwise required by law) by phone or in person in an accessible location within ten (10) business days after the Subrecipient received the appeal request from the applicant and must provide the applicant notice in writing of the time/location of the hearing at least seven (7) calendar days before the appeal hearing.

(4) Subrecipient shall record the hearing.

(5) The hearing shall allow time for a statement by Subrecipient staff with knowledge of the case.

(6) The hearing shall allow the applicant at least equal time, if requested, to present relevant information contesting the decision.

(7) Subrecipient shall notify applicant of the decision in writing. The Subrecipient shall mail the notification by close of business on the third calendar day following the decision (three day turn-around).

(8) If the denial is solely based on income eligibility, the provisions described in paragraphs (2) - (7) of this subsection do not apply and the applicant may request a recertification of income eligibility based on initial documentation provided at the time of the original application. The recertification will be an analysis of the initial calculation based on the documentation received with the initial application for services and will be performed by an individual other than the person who performed the initial determination. If the recertification upholds the denial based on income eligibility documents provided at the initial application, the applicant is notified in writing.

(c) If the applicant is not satisfied, the applicant may further appeal the decision in writing to the Department within ten (10) days of notification of an adverse decision.

(d) Applicants/customers who allege that the Subrecipient has denied all or part of a service or benefit in a manner that is unjust, violates discrimination laws, or without reasonable basis in law or fact, may request a contested hearing under Tex. Gov't Code, Chapter 2001.

(e) The hearing under subsection (d) shall be conducted by the State Office of Administrative Hearings on behalf of the Department in the locality served by the Subrecipient, for which the procedures are further described in §1.13, relating to Contested Case Hearing Procedures, of this title.

(f) If the applicant/customer appeals to the Department, the funds should remain encumbered until the Department completes its decision.

These requirements will also be incorporated into statewide or regional contractor Contracts.

12.5 When and how are applicants informed of these rights?

Applicants are informed of their rights either by 1) informing them on the application itself, 2) handing them a document with such information at the time of application, 3) displaying posters at intake offices, or 4) providing them the information in the denial of LIHEAP assistance letter that is mailed to the applicant.
