RE: Application Amendment for 22312 Azalea Trails

Dear Renee,

This letter concerns an application amendment for HTC 22312 Azalea Trails, a USDA development in Atlanta, Texas, for changes to the development acreage and residential density identified in the application. The amendment fee check has been mailed to TDHCA.

## **Change in Acreage**

At Application, the development site was listed at 7.891 acres based upon the appraisal's use of the properties' legal descriptions. A new survey was not required with the application as this site is a rural USDA property, and these old records were inaccurate. The new ALTA survey is considered to have the correct information. Once the appraiser, Gill Group, was provided with this survey, they realized that the acreage calculation was incorrect. Country Place II's lot size was not subtracted from Phase I's tract, nor was the easement included. They have provided a letter explaining these discrepancies.

## **Change in Residential Density**

The residential density at Application was 72 units / 7.891 acres for 9.124 units per acre. Due to the acreage changes noted above, the residential density is 72 units / 7.488 acres for 9.615 units per acre. This is an increase in density of 5.38%.

The site outline has not changed from what was represented in the application, and there are no changes to the finance exhibits, thus no financial impact to the development.

## **Explanation and Good Cause for the Amendment Request**

The good cause for this amendment request is to correct misinformation regarding the acreage listed in the Application. There is no actual change to the development site represented in the Application, and this request is a correction of a miscalculation of the acreage based on older legal descriptions.

RE: Country Place Apartments (To Be Known as Azalea Trails Apartments) 1300 Courtland Road Atlanta, Texas 75551

Dear Mr. Hamilton,

Please allow this letter to serve as an addendum letter for the appraisal reports dated February 27, 2022. There was a discrepancy noted between the lot sizes noted between the appraisal reports and the attached survey. The appraisals noted lot sizes totaling 7.891 acres, and the attached survey noted total lot sizes of 7.488 acres. The lot sizes included in the appraisals were obtained from the property's legal descriptions; however, the Country Place II's lot size was not subtracted from Phase I's tract, and the easement was not included. Therefore, the 7.488 acres is correct and should be utilized in the tax credit application. The updated land values following this letter.

Please let me know if we may be of any further assistance.

Sincerely,

Samuel T. Gill
